STAR CITIZEN | DUAL VPC CONSTELLATION ALPHA MAP

BINDING TEMPLATE CREATED BY U/YOGIDRAGON
BINDINGS BY U/BUZZZ_KILLER

VIRPIL

NOTES:

GENERAL FUNCTIONS REFER TO FUNCTIONS THAT CAN BE ACTIVATED IN MULTIPLE SITUATIONS.
EXAMPLE: RADAR PING CAN BE ACTIVATED AS A **VEHICLE OPERATOR** OR A **TURRET OPERATOR** WHILE IN ANY **OPERATOR MODE**.

VEHICLE FUNCTIONS ARE DESIGNED FOR EITHER DUAL STICK OR MOUSE AND STICK USE. THEY ARE FOR TRUE GROUND VEHICLES ONLY. FOR HOVER VEHICLE OPERATION REFER TO THE SHIP BINDING CHART.

TURRET FUNCTIONS ARE DESIGNED FOR EITHER DUAL STICK OR MOUSE AND STICK USE. IF USING MOUSE, I SUGGEST BINDING TARGET UNDER RETICLE TO MOUSE MIDDLE BUTTON FOR THE BEST EXPERIENCE.

ON FOOT/E.V.A FUNCTIONS ARE DESIGNED FOR USING THE MOUSE IN YOUR RIGHT HAND. YOU CAN USE THE RIGHT THUMB STICK TO PERFORM BASIC HEAD MOVEMENT AND CAMERA CONTROL. I RECOMMEND BINDING INTERACTION MODE AND P.T.T. ON THE MOUSE BUTTONS 4 & 5 FOR THE BEST EXPERIENCE.

* THIS FEATURE NOT WORKING OR IMPLEMENTED IN CURRENT PATCH

** WHILE HOLDING THIS BUTTON USE MOUSE OR RIGHT ANALOG HAT TO CONTROL PITCH AND YAW ROTATION. ONLY THE MOUSE WHEEL CAN BE USED FOR THE ROLL AXIS.
